VESON
NAUTICAL

At Veson Nautical, client value is the star that guides all that we do. That's why we develop and release more than 500 new features each year to meet the evolving needs of our vast, global client community. Once released, many of these capabilities are automatically added to our dynamic, cloud-native platform where they can benefit clients.

Configurable Alerts in Financials

Configurable Alerts in Financials will give VIP administrators the power to guide their users through correct workflows, prevent mistakes, and define required fields.

Enhanced Modules

FINANCIALS

DATA CENTER

Do these enhancements apply to you?

Ask yourself these questions to determine how your organization will benefit from these additions to the Veson IMOS Platform:

✓ Is more control needed over invoice data prior to posting?

✓ Are users keeping checklists to remember all the data points to fill out on invoices?

✓ Is incomplete or incorrect data sometimes included in posted invoices?

The Challenges

Every business has unique rules and interface needs for data coming out of VIP.

1

Sometimes invoices posted in VIP can have missing or incomplete data.

2

The Features & Benefits

Create if-this-then-that style rules to prevent posting an invoice with a critical error, or present the user with a warning they can dismiss if they are only straying slightly from the path.

Define required fields, ensuring all the necessary data gets passed to downstream accounting systems and reducing the amount of rework needed. Prevent mistakes before they happen.

Take advantage of the latest platform features.

To learn more about these capabilities and others, **read our latest release notes**.
