

At Veson Nautical, client value is the star that guides all that we do. That's why we develop and release more than 500 new features each year to meet the evolving needs of our vast, global client community. Once released, many of these capabilities are automatically added to our dynamic, cloud-native platform where they can benefit clients.

Currency Dimension in Business Rules

Business Rules can now be defined to map transactions to different account codes based on invoice currency.

Enhanced Modules

Do these enhancements apply to you?

Ask yourself these questions to determine how your organization will benefit from these additions to the Veson IMOS Platform:

- ✓ Do you post transactions to a general ledger in VIP Financials?
- ✓ Do you have different account codes for expense and revenue categories in different currencies?

The Challenges

Multi-currency contracts are becoming more prevalent in today's increasingly uncertain market.

Complex financial reconciliation often occurs in downstream corporate financial systems.

The Features & Benefits

1

Automatically allocate forex transactions to the right accounts without additional workflow steps.

2

Adding the currency dimension to Business Rules removes the need for a manual process to adjust or reconcile balances outside of VIP.

Take advantage of the latest platform features.
