

At Veson Nautical, client value is the star that guides all that we do. That's why we develop and release more than 500 new features each year to meet the evolving needs of our vast, global client community. Once released, many of these capabilities are automatically added to our dynamic, cloud-native platform where they can benefit clients.

Editable Part Cargo Factor in Exposure

VIP calculates the Part Cargo Factor to adjust the exposure calculation to best reflect the contract. With this new feature, the calculated factor is visible in the Cargo Exposure tab and can be edited.

Enhanced Modules

Do these enhancements apply to you?

Ask yourself these questions to determine how your organization will benefit from these additions to the Veson IMOS Platform:

- ✓ Do you track contract exposure using VIP Trading & Risk?
- ✓ Do you utilize the Part Cargo tickbox on your freight contracts?
- ✓ Do you have partial cargoes for which you are not calculating exposure today?

The Challenges

Part or Parcel cargoes that do not utilize a vessel's full capacity are becoming more common in today's market.

1

The Features & Benefits

VIP users can now view and edit the underlying exposure factor based on the intended route.

Without precise control over the calculation, part cargoes are often treated as outliers or are excluded from the position entirely.

2

VIP users now have greater control over the exposure calculation for part cargoes, allowing for confident inclusion in the overall trading P&L.

Take advantage of the latest platform features.
