

At Veson Nautical, client value is the star that guides all that we do. That's why we develop and release more than 500 new features each year to meet the evolving needs of our vast, global client community. Once released, many of these capabilities are automatically added to our dynamic, cloud-native platform where they can benefit clients.

Escalating Invoice Approvals in Financial Control

Enhanced Modules

Escalating Invoice Approvals in Financial Control will provide VIP administrators with flexibility to model invoice approval rules based on a number of variables so that each invoice is getting the right number of approvals, from the right people, in the right order.

Do these enhancements apply to you?

Ask yourself these questions to determine how your organization will benefit from these additions to the Veson IMOS Platform:

- ✓ Do some invoice types over certain amounts require an extra approval before posting?
- ✓ Does your organization have different invoice approval rules for AP and AR invoices?

The Challenges

Not all invoices need to follow the same approval process.

1

The Features & Benefits

Improve existing approval workflows to include additional checks on certain invoices while allowing others to go through a lighter process as needed.

Some invoice types, or invoices over certain amounts, need an extra set of eyes.

2

Specify different number of approvals for different invoice types.

Take advantage of the latest platform features.
