

## Safe, efficient, and cost-effective chemical and oil cargo handling

With the most trusted and extensive database of liquid bulk products at your fingertips, Milbros supports more efficient and safe handling of chemical and oil cargo. Milbros is trusted by leading organizations for reliable information on cargo, cleaning, safe handling, regulatory compliance, and more. In addition, we deliver the partnership needed to access around-the-clock support and remain ahead in an evolving maritime industry.

### With Milbros, you can:

- Access the most reliable and extensive chemical and oil commodity database **with over 14,600 commodities**.
- **Enhance safety** with PPE recommendations, prior cargo lists, safety data sheets, and a CPP additives database.
- **CPP additives database** with safety information about coating restrictions.
- **Directly access cargo handling and regulatory expertise** through the IMO/USCG.
- **Stay compatible** with evolving USGC requirements.
- **Minimize dependence on Supercargoes** with up-to-date cargo information.
- **Leverage the largest and most detailed cleaning chemical library**, including over 550 cleaning chemicals evaluated by the IMO.
- **Mitigate risk** of costly cargo contamination, stowage, and other avoidable incidents.
- **Reduce vessel cleaning time** to enhance productivity and accelerate vessel turnaround.

### Clients we are proud to serve:

# Subscription options tailored to your specific requirements

Milbros offers three subscription options so that vessel owners, operators, charterers, brokers, and other key stakeholders can access critical chemical commodity information in a way that maximizes value for their organization.

Here's what is included with each subscription:

Standard	Premium	Onboard
<ul style="list-style-type: none"><li>› SDS (safety data sheets)</li><li>› Cargo handling</li><li>› Tank cleaning advice</li><li>› Library of relevant publications</li><li>› CPP Additives Database</li></ul>	<ul style="list-style-type: none"><li>› SDS (safety data sheets)</li><li>› Cargo handling</li><li>› Tank cleaning advice</li><li>› Library of relevant publications</li><li>› CPP Additives Database</li><li>› Industry Expert advice</li><li>› Phos Acid Tool</li><li>› Styrene Monomer Calculation log</li><li>› Ability to add notes for internal use and to share with your ships with Milbros Onboard</li><li>› 100 PPM UV graphs for Photo-spectrometer use</li></ul>	<p>Milbros Onboard provides vessel owners and operators the ability to access the solution from directly onboard the vessel. Milbros Onboard provides:</p> <ul style="list-style-type: none"><li>› The ability to synchronize updates directly through our website via Internet or email.</li><li>› Ensure access to timely regulatory, cleaning, and safety information straight from the vessel.</li><li>› Automatic registration with the Q88 Response Center for expert chemical advice in the event of a spill or reaction.</li></ul>

*Using Milbros helps Navig8 operators by providing all pertinent information at a click of a button. At Navig8, we work together as a team and rely on one another's information as well as Milbros's expertise to streamline voyages to make them as efficient as possible.*
