

## Q88 > Onboard

Access timely information all the time, even at sea.

Designed to enhance communication between the shipowner, central office, and onboard officers, Q88 Onboard allows all stakeholders to review, update and manage pertinent vessel data in real time throughout a voyage.

**Q88 Onboard guarantees that all of your stakeholders, even those on the vessel, have access to the same, up-to-date information.**

### With Onboard, you can:

-  Access information on-demand with a secure, cloud-based solution.
-  Automatically complete questionnaires directly onboard the vessel.
-  Keep certificates and documents updated with centralized access from anywhere.
-  Update inspections as they happen, maintaining timely and accurate data.
-  Give your tanker fleet access to the latest regulatory, cleaning, and safety information with Marpol Annex 1 Commodity cargo properties.
-  Input up-to-date crew information with a charterer compliant Officer Matrix.

### Clients we are proud to serve:

### Additional solutions:

**Onboard** is available as an add-on for Q88 for tankers and Q88 for dry bulk.
